WORK EXPERIENCE

Web Developer

Metalogic Infotech LLP

June 2023 - Sept 2023

- Played a pivotal role at Metaloginc Infotech LLP as a web developer, instrumental in crafting and refining the company's portfolio website.
- Utilized a range of web technologies to design and develop an impactful online portfolio, showcasing the company's services, achievements, and expertise to clients and partners.
- Collaborated closely with the design and content teams, ensuring a seamless integration of visual elements and compelling content, resulting in a user-friendly and visually appealing website that effectively represented Metaloginc Infotech's capabilities.

MERN Developer

Bitlords Club

Jan 2023 - March 2023

- Utilized Next.js and Node.js technologies to drive the development of BitLords programming club's website, enhancing its performance and user experience.
- Collaborated with club members to create a dynamic and responsive web platform, leveraging Next.js for seamless client-side rendering and Node.js for efficient server-side functionalities.
- Integrated interactive features using Next.js components and harnessed the power of Node.js for backend processes, resulting in an engaging and well-functioning website that effectively served the programming community within SSBT's C.O.E.T.

Others

Attended Crescendo Hackathon, Google Developers Virtual Events and Workshops. Besides, My GitHub portfolio features diverse web projects highlighting proficiency in AngularJS, ReactJS, Node.js, and the MERN stack. These creations encompass dynamic front-end design and robust back-end development, reflecting my adaptability to modern tech trends. Through these repositories, I showcase my ability to craft engaging and versatile web solutions.
