SOFTWARE DEVELOPER

I'm a top-tier software developer, specializing in crafting sophisticated programs and high-end applications. My dedication to excellence ensures flawless software through rigorous testing. I stay ahead of industry trends to shape the technology landscape.

SKILLS

Node JS	Micro-services	Solidity
Angular JS	Docker	Web3
MEAN Stack	Kubernetes	React JS/Next JS

EXPERIENCES & ACTIVITIES

Metalogic Infotech LLP.   **Aug 2023 - Oct 2023**
Full Stack Development Intern
During my internship at Metalogic Infotech LLP, I had the exciting opportunity to contribute to the development of their website. I played a crucial role in enhancing the company's online presence by working on various web development projects. This experience allowed me to gain practical skills in web design and programming while being part of a dynamic team.

Bitlords   **Dec 2022 - April 2023**
Co-ordinator/Founding Member
My experience at BitLords Programming Club was truly fulfilling. As a co-coordinator and founding member, I had the privilege of shaping the club from the ground up. I took on the task of developing our website and promoting it among fellow students at our college. It was a rewarding journey that allowed me to combine my passion for programming with leadership, fostering a community of like-minded individuals eager to explore the world of coding and technology.

Unfold 2K23 (International Level Web3 Hackathon)   **19th Oct 2023 - 21st Oct 2023**
Participant
Participating in Unfold 2K23, a cutting-edge Web3 hackathon, was an exhilarating experience. It was an opportunity to dive into the world of blockchain and decentralized technologies, where I collaborated with other innovators to create solutions for the future.
